NEW USACOE NATIONWIDE PERMITS

The Obama Era USACOE Nationwide Wetland permits were due to expire in 2022. However, the USACOE has plans to rescind the existing Nationwide Wetland Permits and replace them with New 2020 Nationwide Permits that will be valid until 2025.

When will this happen?

The process is expected to start in early 2020. The permits are expected to be effective in mid-2020.

What happens to my existing Nationwide Permit?

Once the new Nationwide Permits go into effect, you will have 12 months to complete your project under the old Nationwide Permit.

What is changing?

There is too much to cover in a single email. There are 12 "priority" Nationwide Permits that have already been addressed in previous USACOE announcements. Plus, the New Waters of the US definition is a factor in these permits.

How can I learn more about this?

Join The Swamp School for its January 23, 2020 Wetland Status and Trends Webinar (<https://swampschool.org/product/2020-wetland-status-and-trends/>).
