PROPOSED CHANGES TO TRI REPORTS

EPA has proposed corrections that will update identifiers, formulas, and names for certain TRI-listed chemicals described in the CFR. This proposal will:

- Remove chemical names for those chemicals that have been delisted or moved to other listings,
- Incorporate listings in 40 CFR 372.65(b) for chemicals that are listed in 40 CFR 372.65(a) but are not listed in 40 CFR 372.65(b),
- Correct inaccurate Chemical Abstracts Service Registry Numbers (CASRN),
- Correct errors in chemical category definitions,
- Remedy other known errors in the CFR chemical lists,
- Remove leading zeros from CASRN,
- Correct errors in the list of lower thresholds for chemicals of special concern, and
- Revise the list of chemical names to include only the TRI primary name and the EPA registry name (if different from the TRI primary name) as a synonym.

In addition, EPA has proposed to replace an existing outdated cross- referenced regulatory citation and modify the text of the de minimis exemption, without changing the substance of the exemption itself. Learn more about TRI reporting and your other EPCRA reporting requirements.
