

2013 MONTGOMERY AWARD WINNER -
AMBLER BOILER HOUSE, AMBLER BOROUGH

RT Environmental Services, Inc. (RT) is pleased to announce that the Ambler Boiler House Project located on Ma Way in Ambler Borough was the recipient of a 2013 Montgomery Award from the Montgomery County Planning Commission.

The Montgomery Awards are awarded by the Montgomery County Planning Commission and recognize the best planning and design in Montgomery County. This annual program promotes awareness of outstanding design and innovative planning in our communities by awarding successful land developments, revitalization efforts, open space enhancements, environmental sustainability, and transportation improvements. Since 1967, there have been 1 projects which have received this honor.

The Ambler Boiler House was honored for the successful revitalization and adaptive reuse of the historic structure into a state-of-the-art office building that incorporates sustainable building design and environmental features. The project is a remediated Brownfield Site which provides pedestrian access to the adjacent SEPTA rail system. This transit-oriented project recognizes Ambler's industrial heritage while advancing the Borough's revitalization efforts and providing environmental and economic benefits to the community.

RT is proud to be a contributing partner on the Ambler Boiler House project and look forward to further redevelopment efforts in the County. For more information on Brownfield Redevelopment in Montgomery County, contact Walter H. Hungarter, III, P.E. at RT Environmental Services, Inc. (610) 265-1510 x 238.
