NJDEP - UPDATED GUIDANCE FOR IMPLEMENTATION OF INTERIM SPECIFIC GROUND WATER QUALITY STANDARDS ESTABLISHED FOR PERFLUOROOCCTANOIC ACID (PFOA) AND PERFLUOROOCCTANESULFONIC ACID (PFOS)

The Site Remediation and Waste Management Program of the New Jersey Department of Environmental Protection (NJDEP) has updated the guidance for implementation of the interim specific ground water quality standards established for perfluorooctanoic acid (PFOA) and perfluorooctanesulfonic acid (PFOS) that were posted to the Division of Water Monitoring and Standards website (<https://nj.gov/dep/wms/bears/gwqs.htm>) on March 13, 2019.

The interim specific ground water quality standards became effective upon posting on March 13, 2019 to the "Table of Interim Specific Ground Water Quality Criteria (ISGWQC), Interim PQLs (IPQLs), and Interim Specific Ground Water Quality Standards (ISGWQS) for Constituents in Class II-A Ground Water" located on this website.

The updated implementation guidance is available on the Site Remediation and Waste Management Program web page available at https://www.nj.gov/dep/srp/guidance/srra/srwmp_implementing_03-13-19_pfoa_pfos_interim_gwqs.pdf. The updates clarify issues raised by the regulated community.
