

MARCELLUS SHALE INDUSTRY PLANS RALLY

From the Marcellus Shale Coalition -

The past ten years have marked an historic milestone in the history of Pennsylvania and the Appalachian Basin. The discovery and development of the Marcellus Shale, and subsequent shale formations, has meant economic growth the scale and impact of which has not been seen since the Industrial Revolution.

With more than 7,000 wells drilled, we have only scratched the surface with regard to the potential benefits this magnificent resource can provide. Though we have made definite progress in educating our communities, legislators and business leaders of the great benefits and potential contained within, there is much work to be done.

The Marcellus Shale Coalition and its allies across the Commonwealth of Pennsylvania have organized an event which will take the industry to Pennsylvania's State Capitol.
