

TWO VOLUNTARY CLEANUP STATES UPDATE THEIR PROGRAMS

Massachusetts and Ohio are both updating their voluntary remediation site cleanup programs. Massachusetts' Program is implemented under the Massachusetts Contingency Plan, and a current version of the MCP can be found at:

<http://www.mass.gov/eea/agencies/massdep/cleanup/regulations/site-cleanup-regulations-and-standards.html#6>.

Most provisions of the updated program take effect on June 20, 2014, but there are other provisions that take effect immediately, as of April 25, 2014, as follows:

* The Reportable Concentrations for Oil and Hazardous Material in groundwater or soil listed in the Massachusetts Oil and Hazardous Material List at 310 CMR 40.1600;

* The elimination of the requirement to submit an initial Tier I Permit Application, formerly 310 CMR 40.0704, from 310 CMR 40.0000; and

* RPs, PRPs or Other Persons may conduct an initial Tier Classification of a disposal site in accordance with the Tier Classification Process and Basis for Tier Classification in 310 CMR 40.0510 and 310 CMR 40.0520, respectively.

Ohio is updating their voluntary cleanup program rules, which are now out for public comment. For more information on these rule changes go to <http://epa.ohio.gov/derr/derrules.aspx>
