## RT's President to Speak at "World of Asphalt's Beyond Compliance Achieving EH&S Excellence Conference" March 19, 2013 San Antonio, Texas

### Stormwater Control and Wetlands Designations Tuesday, March 19 from 8 am - 9 am

Learn about the latest changes in stormwater control regulations and wetlands designations. Understand how to keep your company in compliance with these regulations, both at the facility and at job sites.

### RAP Breakers and Subpart OOO Tuesday, March 19 from 10:30 am -11:30 am

Review what 40 CFR Part 60, Subpart OOO, requires for aggregate-like crushing and processing. Understand how RAP Breakers are treated with respect to Subpart OOO. Learn best practices for minimizing fugitive dust emissions from these types of rock crushing equipment (with Jo Moore).

### Dust Control

Tuesday, March 19 from 11:30 am-12:30 pm

Learn how to control facility and construction site fugitive dust. Understand how the new Soot Rule (PM2.5) will impact fine particulate matter stack testing and operating permits (with Jo Moore).

## PURPOSE

World of Asphalt Show & Conference focuses exclusively on the asphalt industry as its leading exposition and education resource. World of Asphalt features in-depth industry-focused educational programming and comprehensive exhibits that showcase the latest technologies and innovations in asphalt-related equipment, products and services.

## DATES AND LOCATIONS

The next World of Asphalt will be held Tuesday, March 19 through Thursday, March 21, 2013 at the Henry B. Gonzalez Convention Center in San Antonio, Texas (USA).

(World of Asphalt is held annually except in CONEXPO-CON/AGG years when that exposition highlights the equipment, products and services featured at World of Asphalt in distinct and major product-concentration areas.)

The 2013 World of Asphalt Show & Conference is co-located with the 2013 AGG1 Aggregates Forum & Expo, providing an enhanced show experience for attendees by offering additional exhibits and education opportunities.

## ATTENDEES

World of Asphalt is geared toward asphalt, highway/street, pavement maintenance and traffic safety industry professionals from all types of companies such as small to large contractors, materials producers, state and agency specification personnel, maintenance companies, manufacturers and service providers. Visitors come from across the United States as well as worldwide.

## EXHIBITS

World of Asphalt exhibits offer a broad array of the newest products, technologies and services from leading industry companies in areas including:

- Asphalt production and recycling equipment
- Road building machinery
- Pavement maintenance equipment
- Soil stabilizers
- Information technology
  
- Chemical and petroleum products
- Pollution control
- Testing equipment
- Work zone safety and traffic management
- Trucks and trailers

World of Asphalt features a New Products & Technology Program as another way for attendees to quickly find new and innovative products and services on the show floor. In addition, product-focused exhibit pavilions make it easier for attendees and exhibitors to connect and discuss specific operational functions.

## EDUCATION

World of Asphalt hosts prestigious asphalt industry educational conferences,

including the Asphalt Pavement Alliance (APA) Asphalt Pavement Conference and the People, Plants and Paving Training Program. Also offered are certification and specialized training programs.

## SHOW OWNERS AND PRODUCER

World of Asphalt is owned by the Association of Equipment Manufacturers (AEM), National Asphalt Pavement Association (NAPA) and National Stone, Sand and Gravel Association (NSSGA). AEM is the show producer.

## SPEAKER

**Gary R. Brown**, President of RT Environmental Services, is a recognized authority on key environmental compliance issues. His experience includes:

- Over 35 years as a Professional Engineer, including 30 years of engineering management.
- Concept development, permitting, design projects, complex facility upgrading, expansion and industrial closure, as well as Brownfield redevelopment projects.
- Implementation of major remediation projects and state-of-the-art improvements at environmental facilities in the public and private sectors.
- Provided services to clients in over 20 states.
- Preparation of and updating more than 100 SPCC plans for a variety of facilities
