CHANGE IN RULES FOR BUILDING RENOVATIONS, RELATED TO LEAD PAINT MANAGEMENT

Press Release

The Mintz Levin Law Firm recently issued an Environmental Alert, related to a change in federal lead paint rules for building renovations. Key information is that EPA will no longer require dust wipe tests, under the Renovation Repair and Painting Rule, in connection with work that disturbs lead based paint in pre-1978 housing, and facilities servicing children under six.

For more information on the details of the revision in the RRP rule, please [click here](#). If you need further information, Jennifer Sulla of Mintz Levin can be reached at (617) 348-3092 or by email at JSulla@mintz.com.
