STRATEGIC ALLIANCE ANNOUNCED WITH D-FENCE

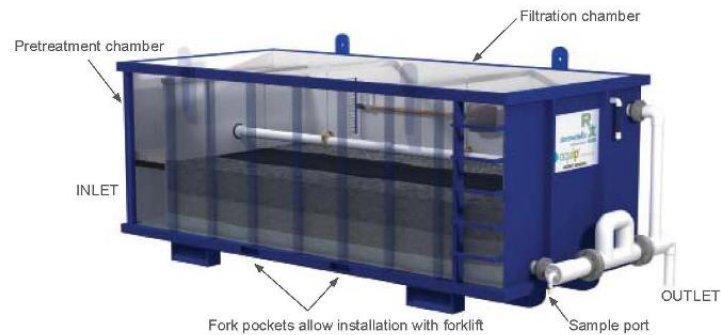

Gray Brown, President of RT Environmental Services, Inc. (RT) is pleased to announce a strategic alliance with D-Fence, who provides services to development and redevelopment interests for stormwater management, in southwestern Pennsylvania. All too often, when multi-day wet conditions prevail, site contractors are left with difficult decisions - remove mud to allow work to resume, or repair silt fences, delaying construction productivity.

D-Fence offers a sound solution, as they provide services to install and maintain silt fences and other Stormwater Management BMPs, allowing site contractors to focus on construction, while D-Fence assumes responsibility to keep stormwater measures maintained and in good condition regardless of weather conditions.

RT will work together with D-Fence to provide initial complimentary construction site plan reviews, focused on using the latest cost effective stormwater Best Management Practice technology as development and redevelopment projects go forward. With many site development and redevelopment projects stalled due to economic conditions, project owners and developers, when ready for construction, should complete a constructability review, because there have been a host of Stormwater and Erosion and Sedimentation Control Best Management Practice improvements, worthy of consideration.

Conservation Districts and the Pennsylvania Department of Environmental Protection are typically in favor of Stormwater Best Management Practice improvements, and three RT professionals - Gary Brown, Josh Hagadorn and Justin Lauterbach can make recommendations which will help site contractors comply with both Pennsylvania Chapter 102 Revisions as well as the tightened EPA

Stormwater Construction Site Rules taking the most technically effective as well as cost effective approach to manage stormwater, in many instances, saving dollars during the construction process.

For more information, you can contact:

- Dan Donovan - D-Fence - 724-941-4974 or email danieldonovan@pittsburghdfence.com
- Justin Lauterbach - RT Environmental Services, Inc. - 215-909-0056 or email at jlauterbach@rtenv.com

As always, we appreciate the opportunity to be of service.
