

**ATTACHMENT 12  
QUALIFICATIONS OF CONTRACTOR**

## **QUALIFICATIONS OF CONTRACTOR**

### **1.0 Relevant Project Experience – CONTRACTOR**

To qualify for the project, you must submit verifiable information on at least three projects, with a contracted value to your firm of at least \$200,000, and which included work completed under environmental regulatory protocols (asbestos and/or arsenic). It is mandatory that adequate expertise be demonstrated on at least three projects involving similar project elements, to be eligible to be qualified.

### **2.0 Health and Safety – CONTRACTOR**

A Health and Safety Plan shall be required for the project. The person preparing the Health and Safety Plan shall have demonstrated experience in similar work involving environmental hazards, such as asbestos and arsenic impacted soil.

### **3.0 Insurance Requirements**

Insurance requirements shall include Pollution Liability coverage for the project, as previously described, in the amount of \$3,000,000 for the CONTRACTOR. General liability coverage in the amount of \$5,000,000 shall also be required for each CONTRACTOR/Subcontractor.

### **4.0 Project Superintendent**

Project Superintendent qualifications must include experience on similar projects, including sites with environmental hazards. Submit Superintendent's resume with Bid Response Sheet.
